How to Make Out-of-Town Calls

Decide first whether the lower priced "Station-to-Station" service can be used or whether "Person-to-Person" service is necessary. To help you decide these calls are explained below.

How to Place the Call

STATION-TO-STATION CALLS

(From One Telephone to Another)

A station-to-station call is one on which you agree to talk to anyone who answers at the called telephone.

A call filed for a private branch exchange extension station or a hotel room number takes the person-to-person classification.

To place a station-to-station call, give the operator—

First—The name of the place you are calling.

Second—The telephone number you are calling (if known) or address name of called station, if the telephone number is not known. For example: John Doe's Residence—425 Main Street.

Third—Hold the line when requested to do so.

A three-minute connection is allowed before "overtime" charges begin if the initial rate exceeds 25 cents. If less than 25 cents, a 5-minute connection is allowed.

FEATURES OF STATION-TO-STATION CALLS

1. The rates are less than on person-to-person calls.
2. They are completed more quickly.
3. There are no report charges on Station-to-Station calls, except in the case of collect calls not completed because of the refusal of the called party to accept the charges.
4. **Person-to-person and station-to-station rates are reduced after 7:00 P. M. to 4:30 A. M. and all day Sunday if the initial rate exceeds 35 cents. The time of day at the originating point when conversation starts determines whether the day or night rate applies.**
5. Charges begin when the called telephone is answered.
6. Charges may be reversed without any change in rate when the rate is 25 cents or more. A slight additional charge is made when the initial rate is less than 25 cents.

PERSON-TO-PERSON CALLS

(From One Person to Another)

A person-to-person call is one on which you desire to talk to a particular person or a private branch exchange extension station. The rate on a person-to-person call is higher than the rate on a station-to-station call.

To place a person-to-person call give the operator:

First—The name of the place you are calling.

Second—Telephone number of the called station (if known) or the address of the called station if the telephone number is not known.

Third—The name of the person you are calling.

Fourth—Hold the line when requested to do so.

The charges can be reversed.

A three-minute conversation is allowed before "overtime" charges begin.

If the called telephone is reached but the call cannot be completed because the person desired is not available and cannot be reached elsewhere, a nominal report charge is made to compensate the Telephone Company for the work done on the call.

COLLECT CALLS

If the charges on the call you are placing are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted by the subscriber at the distant telephone, will be billed to that telephone. If the charge is not accepted at the distant telephone and the call is not completed, you will be billed with the report charge.

For further information regarding classes of service and rates—call "Long Distance."

RULES AND REGULATIONS APPLYING TO ALL SUBSCRIBERS CONTRACTS

Classification of Areas as the Basis for Furnishing Telephone Service—Economical operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company, therefore, does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire, except where protection is afforded. The general plan for furnishing telephone service as authorized in the General Exchange Tariff is based on a classification of areas by types for the determination of the classes of service available and for the application of rates.

Term Period of Contract—The Company's contracts covering the furnishing of telephone service are ordinarily for initial term periods of one month. Under some special condition involving unusual installation costs or involving the installation of special equipment, contracts may be required for longer initial term periods. The Telephone Company's obligation to furnish telephone service is dependent upon its ability to procure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits.

Construction and Installation Charges—The charges and regulations specified in the Company's General Exchange Tariff apply in connection with all classes of service equipment or facilities furnished by the Telephone Company.

Service Connection Charges and Charges for Moves and Changes—A schedule of fixed charges is established covering the connection of a subscriber's station with the exchange of the Company, and covering the charges for moves and changes. These schedules of charges are published in this directory.

Unauthorized Use of the Telephone—Telephone equipment and facilities are furnished for the use of the subscriber, employees, agents, or representatives of the subscriber or members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended to joint users.

All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the subscriber, nor for performing any part of the work transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Company.

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Telephone Company, except upon the written consent of the Company.

Unauthorized Attachments—The telephone equipment, apparatus and lines furnished shall be carefully used and no instrument, appliance or device, of any kind, not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines. In case any instrument, apparatus or device of any kind other than that furnished by the Telephone Company is attached to or connected with any part of the Company's property the Telephone Company reserves the right to remove such instruments, apparatus or device and to suspend or discontinue service without any claim on the part of the subscriber.

No binder, holder or auxiliary covers shall be used in connection with any telephone directory furnished by the Telephone Company.

Changes of Call Numbers—The subscriber has no property right in the telephone number or any right to continuance of service through any certain central office and the Telephone Company may change the telephone number or the central office designation whenever it deems it desirable in the conduct of business.

Party Line Service—When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished establish and furnish service to one other subscriber in the case of two-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line.

All ordinary expense of maintenance and repairs, unless otherwise specified in the General Exchange Tariff or the Local Exchange Tariffs, is borne by the Telephone Company. The subscriber is billed the actual cost of each telephone instrument or piece of apparatus injured or destroyed otherwise than by unavoidable accident.

Terms of Payment—The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at the subscriber's station and for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or at any other agency duly authorized to receive such payment. If objection in writing is not received by the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

In the event of abandonment of the station, the non-payment of any sum due or any other violation by the subscriber of the Telephone Company's rules and regulations applying to subscribers' contracts or to the furnishing of service the Company may without notice, either (a) suspend service until all violations have ceased, or (b) terminate the subscriber's contract without suspension of service or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises. When service has been suspended for non-payment of charges, restoration of service is made upon payment of charges due, and in addition a restoration charge of $1.00.

When instruments have been removed for non-payment, the contract is considered to have been terminated. Reinstallation of service may be made only upon the execution of a new contract.

Uninterrupted Service Not Guaranteed—In view of the possibility of errors and difficulties in the transmission of messages by telephone and the impossibility of fixing in all cases the causes thereof, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments. In case service is interrupted otherwise than by the negligence or wilful act of the subscriber, an allowance is made, computed on the basis of the minimum monthly rate for such of the telephone service, equipment and facilities furnished as are rendered useless or inoperative. Such allowance covers the period the interruption continues after notice in writing is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

For the purpose of inspecting, repairing or removing any part of the Telephone Company's equipment, apparatus and lines on the subscriber's premises, the Company's employees shall have access thereto at any reasonable hour. No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises, resulting from the placing of the Company's instruments, apparatus and associated wiring on such premises, or by the removal thereof, when such defacement or damage is not the result of negligence on the part of the Company or its employees.

The Telephone Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty days after the alleged delinquency occurs.

When suitable arrangements can be made, lines of other companies may be used in conjunction with the Telephone Company's lines in establishing wire connection to points not reached by the Telephone Company's lines. In establishing connections with the lines of other companies the Telephone Company will not be responsible or liable for any action of the connecting company.

The Telephone Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

Public Pay Station Telephones—Public pay station telephones are located at various points for the convenience of telephone subscribers and the general public. Instruction cards are displayed with each public pay station telephone, explaining the operation and patrons should observe and follow those instructions when making calls.

Telegrams by Telephone—In certain cities telegrams may be transmitted to and received from telegraph offices by telephone. To send a telegram or cablegram, call the telegraph company desired. By arrangement with the telegraph companies, telephone subscribers may have charges for messages received or sent, charged to his telephone, and collected with his telephone bill.

Service Connection Charges and Charges for Moves and Changes

Experience and careful investigation of the entire subject has demonstrated the fact that certain service connection charges covering to some extent the average cost of the initial expense of establishing service for new subscribers and of furnishing additional facilities to old subscribers should be paid by such subscribers and should not be borne by the entire body of telephone users. Therefore, a uniform schedule has been prepared which embodies rates that should not retard telephone development in any section and will place upon subscribers responsible therefor a portion of the costs incident to such service connection, leaving the balance as a charge on the business generally. This schedule is as follows:

SERVICE CONNECTION CHARGES:

1. For Individual and Party Line Service $2.50
2. For each extension station connected with any class of telephone service..$1.50
3. For Private Branch Exchange Service the charge for establishing service connection:
   (a) For each trunk line connecting the Private Branch Exchange with a central office $2.50
   (b) For each telephone connected to the Private Branch Exchange except Operators' Telephone Sets $1.50

4. To cover in part Directory, Accounting, Circuit and switchboard expenses in cases where service is established by the use of instrumentalities already in place in the Subscriber's premises and no change is made in the type or location of such instrumentalities, each main station, $1.00.

CHARGES FOR MOVES AND CHANGES

The charges for moves and changes in equipment will be as follows:

1. For moving a main station telephone set from one location to another, on the same premises, $1.50.

2. For moving an extension station or private branch exchange station of same style instrument from one location to another on the same premises, $1.00.

3. For moving an extension station or private branch exchange station from one location to another on the same premises when the style of instrument is changed to a handset, $1.50.

4. For moving any other equipment or wiring from one location to another on the same premises, a charge based on the cost of labor and material.

5. The Company will, subject to the usual charges above set out, install or change the location of a telephone provided it has facilities available, at as early date as practicable, and the conditions under which it is then working permit.

CAROLINA TELEPHONE & TELEGRAPH COMPANY

"TRAVEL BY TELEPHONE"

It Is Surprising How Little It Costs

Use Long Distance for Out-of-Town Business and Social Affairs

The rates below are for the initial period which is 5 minutes on Station-to-Station calls where the rate is 25 cents or less. Where the rate is more than 25 cents the initial period is 3 minutes on all classes of calls. On each call for which the charge is from $.50 to $.99, the federal tax is $.10; where the charge is from $1.00 to $1.99, the tax is $.15; where the charge is $2.00 or more, the tax is $.20.

If you can give the telephone number of the distant station, the call can be handled more promptly. A special Long Distance Directory for listing numbers frequently called will be furnished, without charge, by calling the Business Office. Additional rates and other information may be obtained by calling Long Distance.

This space is provided for your convenience in recording Local and Out of Town Numbers Frequently Called

NAME	City	Tel. Number

TRY THIS SERVICE

YOU can save money and get speedier service on long distance telephone calls by calling for the number of the distant telephone wanted, or if the number is not known, then tell "Long Distance" you wish to make a station-to-station call, giving the name of the person or business whose telephone you wish to call.

There is a reduction in rates for all calls between the hours of 7 P.M. and 4:30 A.M. and all day Sunday. Charges on station-to-station calls may now be reversed.

Messenger service is accepted on all person-to-person calls. Appointments may also be made on person-to-person calls.

Place your Long Distance calls by telephone number! This enables the operator to give you faster service.

If the number of the distant telephone is not known the operator will furnish it when completing your call. It should then be listed above for future use.

Give the number and speed up your service!

CAROLINA TELEPHONE & TELEGRAPH COMPANY

Some Ways In Which The Classified Yellow Pages Can Help You

Radio Service

Batteries

Plumbers

- You are looking for a radio repair shop or beauty shop that has been recommended to you, but you have forgotten the exact name of the firm. Look in the Yellow Pages.
- You are a newcomer in the neighborhood and want to call a nearby drug store for quick service. Look in the Yellow Pages.
- Battery trouble develops. You want to try a new battery which you have seen advertised but do not know where to find it. Look in the Yellow Pages.
- You plan to install a stoker and are considering various types and makes. Look in the Yellow Pages.
- You call some plumber occasionally and due to the unusual spelling of the name or for other reasons it cannot be remembered. Look in the Yellow Pages.
- You want to send an expensive garment to a reliable laundry where you can be assured of first class work. Look in the Yellow Pages.
- You are going away and you want to have something valuable stored during your absence with a firm that can give you the necessary protection. Look in the Yellow Pages.
- You want your refrigerator or automobile serviced by an authorized dealer, but do not know his name. Look in the Yellow Pages.

Nothing guards your home as faithfully as your telephone.

What Is a Live Prospect?

He is a man with a lot of questions in mind. He wants to know WHERE and WHAT and WHOM and HOW and WHEN.

And thousands of live prospects are coming to the Yellow pages of this book daily to find out—

WHERE they can buy something.

WHAT they can get for their money.

WHOM they can buy it from.

HOW they can get it.

WHEN delivery can be had.

HAVE you complete REPRESENTATION?

IF NOT—get listed under the various Headings to cover your business.

THEY
Use It to
BUY!

Thousands of READY-TO-BUY Customers use THE CLASSIFIED TELEPHONE DIRECTORY. Your Best Prospects Use It . . . They use it regularly . . . SURVEYS PROVE this fact . . .

YOU
Should Use It
TO SELL!

Make sure that Prospects FIND YOU! Be represented under ALL HEADINGS describing your products or services. They will locate you quickly and then reach you with the speed of electricity . . . By TELEPHONE . . .

"Advertising Insurance" at
LOW COST

That's what Year-in and Year-out Advertisers say of the . . .

Classified . . .
YELLOW PAGES

IT'S *Easy* TO USE THE

CLASSIFIED TELEPHONE DIRECTORY

Here's How to Find Where to Buy the Article or Service You Want—

1. Locate the heading descriptive of the article or service you wish. These are listed alphabetically. Trade-marks or brand names will be found under headings descriptive of the product or service.
2. Then select from the listings the firm or individual with whom you wish to do business.

You will find general headings descriptive of particular kinds of articles or services with lists of dealers who can serve you.

You will find display representation which will provide you with more complete buying information.

Here's How to Find the Telephone Number of a Business Firm You Have in Mind—

1. Locate the heading descriptive of the general type of business. This will be found in its regular alphabetical order.
2. Then locate the desired firm and telephone number by examining the listings under the heading.

CAROLINA TELEPHONE & TELEGRAPH COMPANY
INCORPORATED

INSTRUCTIONS

Enfield, N. C.

PLEASE READ THE INSTRUCTIONS CAREFULLY, AS THE GOOD SERVICE AVAILABLE DEPENDS UPON THEM.

1. First consult the directory for the number you want to call, remove the receiver and listen for dial tone, which indicates the line is clear, and dial the number wanted.

2. If, after you have dialed the correct number. you hear the busy tone, this will indicate that the number you are calling is being used by someone else. Replace the receiver and call again later.

3. When answering your telephone, answer by giving your name or telephone number. This will help the calling party in knowing whether or not he has dialed the right number, and will eliminate useless conversation.

4. Should you wish to make a second call, replace the receiver for a few seconds to give the apparatus time to restore. Then remove the receiver and dial the number desired.

5. TO DIAL SUBSCRIBERS ON YOUR LINE—
   The numbers are printed with the last figures separated by a dash (241-6). The first three figures indicate the line number (241), and the last figure indicates the ringing code (-6). It will therefore be seen that the numbers 241-1 and 241-6 are on the same line.

   To call a subscriber on your own line, first remove the receiver and listen for dial tone. If the line is clear, dial number 7 and the last figure of your own number and the last figure of the number desired. Replace the receiver and your bell will ring and the called party's bell will ring also. When the called party answers your bell will stop ringing, then remove your receiver and talk. If the called party does not answer you can stop the bells from ringing by removing the receiver and then replacing it.

6. NEVER MOVE THE RECEIVER HOOK UP AND DOWN.
   This will cause wrong numbers.

   The ringing codes are as follows:

241-1	1	1 long ring
243-2	2	2 short rings
245-3	3	3 short rings
251-4	4	4 short rings
262-5	5	1 long, 1 short ring
246-6	6	1 long ring
254-7	7	2 short rings
255-8	8	3 short rings
267-9	9	4 short rings
241-0	0	1 long, 1 short ring

TO CALL WELDON, HALIFAX, JACKSON, LITTLETON, RICH SQUARE, ROANOKE RAPIDS, SCOTLAND NECK, and SEABOARD—DIAL NO. 8

For calls to all other places dial No. 0

Are You An Advertiser?

Only representative merchants of a community advertise in the Telephone Directory.

The Directory is their advertising medium, and the telephone, always ready and close by, gives direct connection.

What better modern methods could be adopted for advertising and stimulating your business?

Your advertisement in this directory will increase your business. The telephone directory remains always by the side of the means of giving the order ---the telephone. It is permanently in the homes and offices of the leading people in the city. Rates and information cheerfully given. CALL THE MANAGER.

'Tis a wee chilly hour when the Browns are startled from their slumbers by the insistent jingle of the telephone bell . . . . Later Mr. Brown will complain bitterly of having to dash through the dark hall and down the stairs to the telephone; whereupon he will listen to some pointed remarks about man's mistaken ideas of economy and hasn't she said all along they ought to have an extension telephone in the bedroom, etc. Think of the steps it would save her in the daytime, etc. etc.'

CAROLINA TELEPHONE & TELEGRAPH COMPANY

INSTRUCTIONS

Spring Hope, N. C.

HOW TO DIAL—(General):

Remove receiver from hook, listen for dial tone and dial number desired. If, after dialing, you hear a series of buzzes, this is the busy tone and indicates the number you called is busy. Hang up receiver and call later. After talking, you may wish to put in a second call, in which case hang up your receiver for about five seconds, remove the receiver and dial again.

The first three figures of each number indicates the line number and the last figure indicates the ringing code. For instance, the number 245-1 represents line No. 245 and ringing code No. 1; the number 271-6 represents line No. 271 and ringing code No. 6. The ringing codes are as follows:

Tel. No.	Code No.	Ringing Code
221-1	1	1 long ring
221-2	2	2 short rings
221-3	3	3 short rings
221-4	4	4 short rings
221-5	5	1 long and 1 short ring
221-6	6	1 long ring
221-7	7	2 short rings
221-8	8	3 short rings
221-9	9	4 short rings
221-0	0	1 long and 1 short ring

PARTY LINE—

To call a subscriber on your own line, first take down your receiver, when dial tone is heard dial No. 7 and the last figure of your own number and the last figure of the subscriber's number desired. Hang up the receiver. The bells of both telephones will ring alternately. When your bell stops ringing this indicates that the other party has answered, then lift your receiver and talk.

Ringing on your own telephone may be stopped by momentarily removing your own receiver from the hook.

To call Long Distance dial 0.

To call Information dial 0 and ask for Information.

To report telephone trouble dial 0 and ask for Repair Clerk.

To call Group Manager's Office, dial 0 and ask for 9000.

Do not move receiver hook up and down. This will cause wrong numbers, or if you are talking, will cause the line to disconnect.

INSTRUCTIONS

Whitakers N. C.

PLEASE READ THE INSTRUCTIONS CAREFULLY, AS THE GOOD SERVICE AVAILABLE DEPENDS UPON THEM

1—First consult the directory for the number you want to call, remove the receiver from the hook and listen for dial tone and dial the number wanted.

2—If, after having dialed the correct number you get the busy tone, this indicates that the number you are calling is being used by someone else. Hang up the receiver and call again later.

3—When answering your telephone do not say Hello. Say, this is number 221 or whatever your telephone number may be. This will enable the calling party to know whether or not he has dialed the right number, and will eliminate useless conversation.

4—Should you wish to make a second call, pull the receiver hook down and hold it in this position for about 5 seconds. Release the hook, and dial the number wanted.

5—To call a subscriber on your own line, take down your receiver. If the line is clear, dial number 01 and the last figure of your own number and the last figure of the number desired. Hang up the receiver. Your bell will then ring and the called party's bell will ring. When the called party answers your bell will stop ringing. Remove your receiver and talk. If the called party does not answer you may stop the bells from ringing by removing the receiver from the hook, and replacing it.

6—Codes for party lines are as follows:

Code	
271....1....1	short ring.
242....2....2	short rings.
243....3....3	short rings.
274....4....4	short rings.
275....5....1	long and 1 short ring.
276....6....1	short ring.
277....7....2	short rings.
278....8....3	short rings.
279....9....4	short rings.
270....0....1	long and 1 short ring.

7—To call Long Distance or Information, dial No. 04.

8—To call subscribers in Enfield dial 08.

INSTRUCTIONS

Wilson, N. C.

HOW TO USE THE DIAL TELEPHONE

On all calls, remove the receiver carefully from the hook and *listen for the dial tone before starting to dial a number. The dial tone is a steady humming sound heard in the telephone receiver,* indicating that the line is ready for you to dial.

HOW TO DIAL A NUMBER

When you hear the dial tone, keep the receiver off the hook and dial each figure of the telephone number, as listed in the telephone directory, consecutively in the order given. For example, if you are calling 3456, proceed as follows:

1. Place your finger in the opening over the figure 3.
2. Turn the dial around until your finger strikes the finger stop.
3. Remove your finger and without touching the dial allow it to return to its normal position.
4. Proceed in the same way to dial the other figures 4, 5, and 6.

If your finger slips, or you make a mistake in dialing, hang up the receiver at once, wait a few seconds and dial again.

Before starting to dial a second call, always hang up your receiver for a few seconds in order to clear the previous connection.

RINGING AND BUSY SIGNALS

Within a few seconds after you have completed dialing, you should hear either the ringing signal, an intermittent burr-rr-ing sound, indicating that the bell of the called line is ringing, or the busy signal, a rapid buzz-buzz-buzz, indicating that the called line is busy.

If you do not hear either of these signals within half a minute, hang up the receiver, wait a few seconds and make another attempt.

OBTAINING ASSISTANCE FROM "OPERATOR" IN EMERGENCIES

If the lights are out, or you need assistance from the Operator in emergencies, you may secure an operator by simply placing your finger in the opening in the dial over the figure "O" and turning the dial around to the finger stop and releasing it.

Explain your difficulty to the operator and she will assist you.

COIN BOX TELEPHONES, OR PAY STATIONS

Instructions covering operation of coin box telephones are mounted on each coin box station.

CALLS FROM A PARTY LINE OR FROM A LINE WITH AN EXTENSION TELEPHONE

Always make sure that the line is not in use. If you do not hear the dial tone, ask if the line is being held by some one else on the line. If no response is received, hang up the receiver for a few seconds and make another attempt.

Listen on the line while dialing, and if you hear another party come in on the line, or hear successive clicks in the receiver, it indicates that some one else on the line is trying to dial. Inform him that the line is in use and ask him to hang up his receiver. When he does so, hang up your own receiver for a few seconds and then remove it and dial the complete number again.

To dial another party on your line, it is necessary to dial a special code number instead of the number listed in the telephone directory. If you wish to know who else is on your line, this information may be secured by dialing 7. If you know the listed names and numbers of others on your line, then proceed as follows:

1. If you are a two-party subscriber, it is only necessary to dial code number 616.

2. If you are a subscriber on a line with more than one other party, dial "6" followed by the last figure of your number and the last figure of the number you desire.

Always after you have dialed the proper code number hang up your receiver. Your bell, as well as that of the party you dialed, will ring at brief intervals until the called party answers. When your bell stops ringing, remove your receiver and talk to the party answering.

If your bell does not stop ringing in from one to two minutes, it indicates that there is no one to answer the called telephone. You should then stop your bell and clear the connection by removing your receiver for a few seconds and then replacing it.

Every Telephone Worker is a Service Salesman

You, no doubt, know some telephone people. They may be your neighbors, your friends or acquaintances. You meet them on the street, in the stores or at social affairs. They are friendly individuals just like yourself.

Every one of these telephone people wants to help you in the selection of the kind of telephone service that will fit your particular needs. They will gladly help you solve any problems or adjust any difficulties.

If you wish to have new or enlarged telephone service, just tell any telephone employee of your acquaintance. They will be glad to suggest the type of service that best suits your needs and will see that it is installed at the earliest possible date. If you do not know an employee, the Business Office will be glad to take your order.
